- **Introduction**

We are offering a Mediterr' Asian family-style brunch menu consisting of an assortment of shareable dishes. Inspired by Japanese and South of France cuisine.

- **Concept**

This menu is intended to be enjoyed family style. To begin your experience, we suggest ordering a few different dishes from the top section of the menu prior to the one large plate of your choice.

≥ For the staff: Try to control the number of dishes the guests are ordering without limiting them with a number, I.e offer 4 dishes for a 2 top before their large dishes, 8 dishes to a 4 top... etc.)

I would be happy to help you curate the menu and select dishes for the table based on your taste and preferences.

≥ Read your table and ask questions to your guests to try to create a menu that you believe will suit them best.

If you would like to order more food, we can certainly order more as necessary after receiving your large dishes as part of our buffet to the table offering

This menu also includes a dessert assortment for your table

Do you have any allergies/dietary restrictions that I should be aware of?
