

DRAKE'S

AQUA
SUSHI • BAR

WHAT IS SUSHI?

Anything made with vinegared rice.

Contrary to popular belief, sushi is **NOT** necessarily raw fish.

There are many different types of sushi.

Aqua offers Maki Sushi, Nigiri Sushi and Sashimi.

SUSHI DELIVERY BASICS

1. When you pick up sushi from the line, don't be afraid to ask questions. It is better to ask, than not know. All our Aqua sushi is served with pickled ginger and wasabi.
2. When you deliver the sushi to the table, repeat back to the guests what they have ordered as you deliver it. For example, if your guest ordered a California Roll and a Tempura Shrimp Roll, deliver it by saying "This is your California Roll and this is your Tempura Shrimp Roll." If the rolls are on one plate (this is how sushi appetizers are often presented), be sure to distinguish the difference to the guests between the rolls.
3. Make sure the guests have plenty of soy sauce on the table.
4. Make sure the guests have one soy dish per person and a set of chopsticks.
5. Ask the guests if you can get them anything else and encourage them to enjoy their sushi.

***Sushi delivery is simple as long as you are aware of what you are presenting. If you ever have any questions, just ask!**
