- C: How many total locations does your company have?
- C: <u>How many approximate employees do you have?</u> (if more than one location, get the total amount of employees at all locations combined. If they don't know, you can say "What's the average at each location?" and then multiple that number by the number of locations to get an estimated amount of total users.
 - As they tell you the number of locations and users, type them in to this page to get pricing: https://lms.train321.com/#/register.
 - Unless they tell you otherwise, just click food handler and alcohol course for a starting point.

Here's an example using 2 locations and 200 users:

- Once you see the estimated price:
- C: Ok, for the required food safety, alcohol and human trafficking courses, the monthly subtotal for all users would be: \$X.XX. AND you have earned a discount bringing your total cost per month down to \$X.XX.

If you can tell they are a decision maker and still have no interest at all/rushing you off the phone:

C: We can set up a trial account for 90 days, no charge, obligation or payment info taken. When you like it, continue. If not, simply stop using it.

Pc: We are using another vendor:

- C: <u>That is excellent. I am glad you care about your compliance. What company are you working with?</u> (write that down in the notes section of LACRM)
- C: We happen to have a 10% price beat guarantee. Whatever you are paying now, we will beat it by 10% and also include two additional courses of your choice at no charge.

 If they talk about an early termination fee, offer to take care of that as well.
